**NASTURTIIUM**

Golden Gleam (Novelty). This new type of semi-trailing habit is a new development in Nasturtiums. The plant forms a large bush, which throws out short runners averaging 18 inches; the sweet scented, large double flowers are of a golden yellow color and average two to three inches across; they are borne on erect, stiff stems six inches in length and stand well above the foliage; splendid for cutting. For the florist who grows pot plants, this variety is a good proposition and well grown plants in 3-inch pots will find a ready sale. The seed we offer is strictly originator's stock. Trade pkt., 25c.; 75c. per oz.
